

OREM HIGH SCHOOL

Mike Browning
Principal

To Sterling Scholar Board,

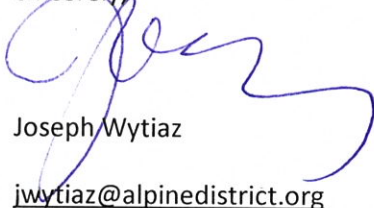

I have had the pleasure of knowing Matt Daw for a little more than a year. I was his Secondary Math 3 Honors teacher during the 2015-2016 school year. In my year of experience in working with Matt, I have been impressed with the high quality of work he has produced.

Matt was an outstanding mathematics student. His attention to detail is exceptional and his diligence in managing responsibilities of the class is high. While being well beyond competent, Matt never decided that he was done with learning and that he could rest on his previous work. He always took new learning opportunities seriously and reflected on his progress within the context of the course. Additionally, Matt is generous with his time and was always willing to assist others with their mathematical struggles with cheerfulness and accuracy.

Matt also exhibits strong leadership characteristics. Last year, Matt organized and led the Orem High Board Game club and was responsible for the meetings, competitions, materials, and facilitating strategic, fun interactions. Some of the members of the club had challenges, socially, that Matt worked around, creating an environment of strategic fun for all.

I believe that Matt is a great representative of OHS and I'm proud that we get to attach our school's name to him in the Sterling Scholar program.

Sincerely,

Joseph Wytiaz
